Brian - you are correct. The report was intended for 32-I LCID. Since they are both in Durham and close to each other, this is not unusual.

Regards

JT

John,

Pertaining to the Hydrogeologic Evaluation Report by David Garret submitted on August 20, 2010; the documentation refers to Permit No. 32D – LCID, instead of 32-I LCID. Please respond with an e-mail correction verification. A brief sentence confirming the correct permit number for this LCID landfill will suffice.

Thanks,

Brian

Attached is the report regarding ground water conditions. Do you need a paper copy as well?

Thanks,

JT

John,

Thanks for the report. A hard copy is not necessary

Thanks.

Sorry I did not get back to you last week. Was out of town last half of the week.

It's been a bit difficult to get Aaron Hill or Brian Boutin scheduled. We are set for the morning of July 29th. Results should be available shortly thereafter.

John,

I mailed a letter today to Mr. Currin, requesting to revise the Operations Plan, etc. since the presently inactive LCID facility may be mined and used for wood grinding operations in the future. Please respond within 30 days. Attached is the letter in pdf format.

Thank you.

John,

What's the status on this (seasonal high water table data)

Thanks,

Brian

John,

Just checking on status of soil boring info for seasonal high water table.
I am not rushing you; I am aware David Garrett has had some family issues.

Thanks,

Brian

Good Morning:

Attached are the calculations requested.

I'd say there is substantial volume available in the future, it may be more or less depending on the final design.

Regards,

JT

John,

Per our conversation today, a 15 day extension (by June 15th, 2010) is granted for both LCIDs, 32-I and 32D..

Brian Wootton.

Good Morning:

Glen Currin brought your letters by for the Durham Co. Landfills. I'm requesting 30 more days to respond. Their Wake County landfill has a June 3 deadline and we have limited personel here - i.e., it's just me. I'd appreciate it if you all could work with me on this.

Thanks,

JT
