Re: "Permitting and Operation Manual"  
Slater Industries Treatment and Processing Facility  
Permit No. 34-22  
Forsyth County, DIN No. 11285

Dear Mr. Joe and Frank Slater:

The "Permitting and Operation Plan" for a Treatment and Processing 5-year Permit renewal has been submitted to the Division of Waste Management, Solid Waste Section (Section) on your behalf by your consultant Allied Design, Inc. It was received on May 13, 2010. Your permitting fee was received on July 15, 2010.

In accordance with GS 130A-295.8(e), the Section has reviewed your application and found it to be complete. A determination of completion means that the application includes all required components but does not mean that the required components provide all the information that is required for the Section to make a decision on the application. Please be reminded that a permit cannot be issued until the compliance review is completed and approved.

If you have any questions or comments, please contact me at (704) 235-2163, or by email at [john.murray@ncmail.net](mailto:john.murray@ncmail.net).

Sincerely,

John Murray, P.E.  
Regional Engineer  
Solid Waste Section
