Subject: RE: Duke/Allen Permit

Larry:

We are currently scheduled to begin our inspection program for these dams on December 15, weather permitting and will be unable to attend the proposed meeting. However, from review of S&ME's response letter to me dated October 7, 2009 (with copy to you) and the revised operations plan dated November 20, 2009 sent to you with copy to me, it appears that S&ME has responded to my comments of September 15, 2009 in satisfactory manner. At this time, we cannot comment on our response to future requests to lessen the frequency of testing. Thank you.

Subject: Duke/Allen Permit

Gentlemen,

Duke is still looking for the Permit to Operate at the Allen Steam Station in Gaston County. They would like to have a per-operation meeting next week either December 15 or 16. The meeting is dependent on receipt of the permit. Please let me know if you would be interested in attending this meeting.
