Dear Mr. Moore:

On March 30, 2012 the Division of Waste Management (Division) received MedWaste Solutions' letter;

- Revised Facility Drawing. Prepared by MedWaste Solutions. March 2012. DIN 16381.

The letter includes a drawing of the Facility showing the following revisions; installation of a 12' wide overhear door, installation of a 10' x 12' office/break room, and installation of a 10' x 14' cooler. The letter also reports that the Facility's electrical service has been upgraded.

The Division has reviewed the letter and hereby approves of the revisions to the MedWaste Solutions LLC, Medical Waste Treatment Facility, Permit No. 3615. The Facility should operate in this manner until the current permit is either amended or modified. Therefore, the next time the Facility prepares either a Permit amendment or modification it is expected to include a revised Site Plan.
