Re: Application for Continued Operation  
Greene County Construction and Demolition Landfill (CDLF)  
Greene County, Permit No. 40-02, Document ID No. (DIN) 8070

Dear Mr. Jones:

On June 24, 2008, an application was submitted on your behalf by Municipal Engineering Services Co., Inc. (MESCO) for the continued operation of the Greene County CDLF as required by 15A NCAC 13B .0547(4).

On February 19, 2009, the Section issued a comment letter (DIN 6842) to you and your consultant, Mr. Wayne Sullivan of MESCO. Mr. Sullivan of MESCO was contacted via email on April 3, 2009, requesting an update on revisions to the application. The Section received a response stating that he expected to answer the comments by the following week. The Section sent a letter to you on May 4, 2009, concerning the need to respond to meet the statutory requirements. The Section has not received a response from you or MESCO since the April 3<sup>rd</sup> email.

A revised application which completely and adequately addresses the comments made in the technical review letter is required as soon as possible. Please provide this document to the Section by August 6, 2009, or contact the Section to establish a timely schedule and commitment to do so. Failure to respond could put the permit in jeopardy for future action. If there are any issues that require the Section's assistance, please contact me at 919-508-8525. Your cooperation in the matter is appreciated.

Sincerely,

Patricia M. Backus, P.E.  
Environmental Engineer  
Solid Waste Section
