Construction and Demolition Permit fees  
Permit No.: 4103-CDLF-1998

Dear Mr. Skabo:

The City of Greensboro is in receipt of invoice number SWCDT08-000010 for the White Street Landfill's construction and disposal unit. The City is remitting \$1,500.00 consistent with facilities requesting a permit modification and having waste volumes less than 100,000 tons per year.

Previously, the City of Greensboro remitted our annual report documenting the waste volume reduction that has been occurring in this region due to alternative management sources. This documentation verifies that our waste volume is below the 100,000 tons per year. Likewise, we reference information received from NC DENR as presented at the NC SWANA Technical Session on April 15, 2007 regarding existing facilities that will continue to accept waste. Per this documentation (enclosed), our permit modification fees should be \$1,500.00 as remitted.

If you have any questions regarding our understanding of the permit fee schedule, please contact me at your convenience (336) 373-2787.

Very truly yours,
