Re: Permit to Operate: Halifax Coal Ash Landfill, Halifax County, North Carolina, Permit No. 4204-INDUS-1994

Dear Ms. Matthews:

Please find enclosed the Permit to Operate for the Halifax Coal Ash Landfill, Permit No. 4204-INDUS-1994. This permit issuance approves the continued operation of Cells 1 and 2.

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations.

Please review the conditions of the permit carefully. Of particular note is condition #3 on page 3 that requires recordation of the permit at the Register of Deeds within 30 days, and return of the recorded permit to the Solid Waste Section. This is necessary because the property description of the site had been left out of the previous recordation of the permit in September 1993.

The certified copy of the permit for recordation purposes is enclosed.

If you have any questions regarding the permit or conditions, please contact me at (919) 707-8255 or by email at donna.wilson@ncdenr.gov. The Solid Waste Management Specialist for the facility is Mary Whaley. She can be reached at (919) 693-5023.

Sincerely,

Donna J. Wilson
Environmental Engineer
Solid Waste Section
