PART I: Permitting History

Permit Type	Date Issued	Document ID
Permit to Construct	July 2, 1997	
Permit to Operate	December 23, 1997	
Permit to Operate – Amendment	March 30, 2005	
Permit to Operate – Amendment	May 3, 2007	2249
Permit to Operate – Correction	September 6, 2007	2987
Permit to Operate – Amendment	May 15, 2012	16615

PART II: List of Documents for the Approved Plan

1. Permit Submittal Document and Operations Plan for the Waste Management Town of Weldon Transfer Station. November 24, 1997. Received December 2, 1997.
2. Facility Plan for the Waste Management – Town of Weldon Transfer Station. April 1997.
3. Zoning approval letter from Linda W. Griffin. June 16, 1997.
4. Substantial completion letter from Bill Dreitzler. December 15, 1997.
5. *Weldon Waste Transfer Facility Operations Plan*. Prepared by G. N. Richardson & Associates, Raleigh, NC. Prepared for Waste Industries. June 2005
6. *Weldon Waste Transfer Facility Operations Plan*. Prepared by G. N. Richardson & Associates, Raleigh, NC. Prepared for Waste Industries. January 2007.
7. *Operation Plan Weldon Waste Transfer Facility, Permit 42-05T*. Prepared by Waste Industries, LLC. December 22, 2011. DIN 15917. Revised through May 10, 2012. DIN 16614.

PART III: Properties Approved for the Solid Waste Facility

Halifax County, NC Register of Deeds				
Book	Page	Grantor	Grantee	Acres
2075	434	Waste Management of Carolinas, Inc.	Waste Industries, LLC	9.14

PART IV: General Permit Conditions

1. This permit shall expire May 3, 2017. Pursuant to 15A NCAC 13B .0201(g), no later than December 3, 2016, the owner or operator must submit a request to the North Carolina Department of Environment and Natural Resources, Division of Waste Management, Solid Waste Section (“Section”) for permit review and must update pertinent facility plans including, but not limited to, the facility operation and waste screening plans.
2. The persons to whom this permit is issued (“permittee”) are the owners and operators of the solid waste management facility.
3. (Intentionally blank)
4. (Intentionally blank)
5. By receiving waste at this facility the permittee shall be considered to have accepted the terms and conditions of this permit.
6. Operation of this solid waste management facility shall be in accordance with the North Carolina Solid Waste Management Rules, 15A NCAC 13B; Article 9 of the Chapter 130A of the North Carolina General Statutes (NCGS 130A-290, et seq.); the conditions contained in this permit; and the approved plan. Should the approved plan and the rules conflict, the Solid Waste Management Rules shall take precedence unless specifically addressed by permit condition
7. This permit is issued based on the documents submitted in support of the application for permitting the facility including those identified in Attachment 1, Part II, “List of Documents for Approved Plan,” and which constitute the approved plan for the facility. Where discrepancies exist, the most recent submittals and the Conditions of Permit shall govern.
8. This permit may be transferred only with the approval of the Section, through the issuance of a new or substantially amended permit in accordance with applicable statutes and rules. In accordance with NCGS 130A-295.2(g) the permittee shall notify the Section thirty (30) days prior to any significant change in the identity or business structure of either the owner or the operator, including but not limited to a proposed transfer of ownership of the facility or a change in the parent company of the owner or operator of the facility.
9. The permittee is responsible for obtaining all permits and approvals necessary for the development of this project including approval from appropriate agencies for a General or Individual National Pollutant Discharge Elimination System Stormwater Discharge Permit. Issuance of this permit does not remove the permittee’s responsibilities for compliance with any other local, state or federal rule, regulation, or statute.

ATTACHMENT 3

Conditions of Permit to Operate

PART I: Operation Conditions

1. The facility is permitted to receive solid waste as defined in NCGS 130A-290 (a) (35).
2. The following, at a minimum, must not be accepted for disposal at this facility: hazardous waste, yard trash, liquid wastes, regulated medical waste, sharps not properly packaged, regulated-asbestos containing material as defined in 40 CFR 61, and PCB waste as defined in 40 CFR 761. Wastes banned from landfill disposal in North Carolina by NCGS 130A-309.10 (f) must not be transferred for landfill disposal.
3. This facility may receive solid waste that is generated within Bertie, Edgecombe, Franklin, Halifax, Hertford, Martin, Nash, Northampton, Vance, and Warren Counties in North Carolina, and Brunswick, Greenville, Southampton, and Sussex Counties in Virginia. Proposed changes to the service area must be approved by the Section and will constitute a permit modification and be subject to the applicable permitting fee.
4. Waste must be transported for disposal to the East Carolina Environmental Regional Landfill (Permit 08-03) in Bertie County, NC; the Brunswick Waste Facility (Sanitary Landfill Permit #583) in Lawrenceville, VA; or the Sampson County Landfill (Permit 82-02) in Sampson County, NC. Waste must not be transported to facilities that are not permitted to accept the waste. Proposed changes to the disposal facility must be approved by the Section and will constitute a permit modification and be subject to the applicable permitting fee.
5. The permittee must not knowingly dispose of, or accept for transfer for subsequent disposal, municipal solid waste that is generated within the boundaries of a unit of local government that by ordinance:
 - a. Prohibits generators or collectors of municipal solid waste from disposing of that type or form of municipal solid waste.
 - b. Requires generators or collectors of municipal solid waste to recycle that type or form of municipal solid waste.

6. A responsible individual trained in facility operations must be on-site during all times during operating hours of the facility, in accordance with NCGS 130A-309.25. An attendant must be present to oversee the loading and unloading of waste.
7. The permittee must develop, and use, a training and screening program at the facility for detecting and preventing unauthorized wastes from being accepted at the facility. At a minimum, the program must include:
 - a. Random inspections of incoming loads or other comparable procedures.
 - b. Records of all inspections.
 - c. Training of personnel to recognize hazardous, liquid, and other excluded waste types.
 - d. Development of a contingency plan to properly manage any identified hazardous, liquid, or other excluded or unauthorized wastes. The plan must address the identification, removal, storage, and final disposition of these wastes.
8. The facility must not cause nuisance conditions.
 - a. The tipping floor and transfer trailer loading area must be maintained in a clean, sanitary condition at all times and must be cleaned at least daily in accordance with the approved Operation Plan.
 - b. Waste must only be deposited on a “tipping floor” or directly into a transfer container. Waste must not be stored on the “tipping floor” after operating hours.
 - c. Waste may be stored onsite in leak-proof transfer trailers, with watertight covers, a maximum of 24 hours, except that a minimal amount of waste may be stored for a maximum of 72 hours when the facility is closed during a weekend or holiday. Storage of the waste must not cause any nuisance, such as odor or the attraction of vectors.
 - d. Effective vector control measures must be applied at all times to control any potential vectors including flies, rodents, insects, and other vermin.
 - e. Control measures must be utilized to minimize and eliminate visible dust emissions and blowing litter.
 - i. Fugitive dust emissions are prohibited.
 - ii. Windblown materials must be collected by the end of the day and no windblown material may be allowed to leave the facility boundary.
9. All water that comes in contact with solid waste, including vehicle wash-down water, is leachate and must be captured and properly treated before release to the environment.
 - a. The leachate control system; such as floor drains, leachate collection devices, sanitary sewer connections and leachate storage tanks; must be operational during facility operations.
 - b. The tipping floor must drain away from the building entrance and into the leachate collection system.
10. All sedimentation and erosion control activities must be conducted in accordance with the Sedimentation Control Act NCGS 113A-50, et seq., and rule promulgated under 15A NCAC 4.

11. Copies of this permit, the approved plans, and all records required to be maintained by the permittee must be maintained at the facility, unless otherwise approved by the Section, and made available to the Section upon request during normal business hours.
12. The permittee must maintain a record of the amount of solid waste received at the facility including daily records of waste received and origins of the loads. Scales must be used to weigh the amount of materials received. The daily records should be summarized into a monthly report for use in the required annual reports.
13. On or before August 1 annually, the Permittee must submit an annual facility report to the Solid Waste Section, on forms prescribed by the Section.
 - a. The reporting period shall be for the previous year beginning July 1 and ending June 30.
 - b. The annual facility report must list the amount of waste received in tons and be compiled:
 - i. On a monthly basis.
 - ii. By county, city or transfer station of origin.
 - iii. By specific waste type.
 - iv. By receiving disposal facility.
 - v. By diversion to alternative management facilities.
 - c. The completed report must be forwarded to the Regional Environmental Specialist for the facility by the date due on the prescribed annual facility report form.
 - d. A copy of the completed report must be forwarded to each county manager for each county from which waste was received at the facility. Documentation that a copy of the report has been forwarded to the county managers must be sent to the Regional Environmental Specialist by the date due on the prescribed annual facility report form.
14. Financial assurance as required by state rules and statutes must be established and be continuously maintained for the duration of the facility in accordance with the applicable rules and statutes

PART II: Miscellaneous Solid Waste Management Conditions
