Re: Application for Continued Operation
Anderson Creek C&D Landfill
Harnett County, North Carolina
Permit No. 43-03
Doc ID No. 6369

Dear Mr. Blanchard:

Thank you for briefly meeting with me at the Division of Waste Management Offices November 26 regarding the above referenced facility.

As discussed during the meeting, an application for the Anderson Creek C&D Landfill permit must be submitted in compliance with NC Solid Waste Management Rule 15A NCAC 13B .0547. The application was due to this office by July 1, 2008, and is necessary to return the facility to compliance with the rules. Your engineering consultant indicated during the meeting that the application would be forthcoming. Since we have not received the application as of the date of this letter, you will need to submit to this office by the close of business Friday, January 2, 2009, to avoid any enforcement action.

Thank you for your cooperation in this matter. If you have questions about the permit conditions or questions arise during construction, please contact me at 919.508.8498.

Sincerely,

Geoffrey H. Little
Permit Engineer
