Subject: Determination of Completeness – Installation Plan
Blue Ridge Paper Landfill, Lower Areas B and C
Haywood County, Permit #44-06, Document ID No. 7069

Mr. Giauque:

The Division of Waste Management, Solid Waste Section (Section) received a copy of the document titled *Installation Plan, Solar Farm on Evergreen's Closed Landfill Cell*, Document ID No. 6815, February 12, 2009. This application was submitted on your behalf by FLS Energy Inc. and was received by the Section on February 12, 2009. The required permit fee has been paid so a technical review of the document will begin as soon as possible.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. The application is deemed complete so the Section will begin the technical review of the document to determine compliance with the associated Solid Waste Management Rules, 15A NCAC 13B.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncmail.net.

Sincerely,

Allen Gaither
Environmental Engineer
