Dear Mr. Sperry,

I have received your letter dated March 7, 2012 regarding a proposed permit amendment for the White Oak MSW Landfill in Haywood County that would increase the allowable daily tonnage received from 250 tons per day to 400 tons per day. We have reviewed potential traffic impacts associated with this proposed tonnage increase and have determined that there will be no substantial impacts to highway traffic.

I appreciate the update regarding the issue of mud being tracked onto White Oak Road. This has been an issue in the past and we are pleased to hear that there are plans to install a tire wash facility to address this issue.

I hope this information will be helpful to you. If you have any questions regarding this information or need further information, please don't hesitate to contact me at (828) 497-7333.

Sincerely,

J. L. Woodard, P. E.
District Engineer
