Re: Assessment of Corrective Measures Report
Macon County Lined Landfill, Permit #57-03

Dear Mr. Stahl,

The Solid Waste Section has reviewed the *Assessment of Corrective Measures Report* submitted on behalf of Macon County by BLE Inc. for the Macon County Lined Landfill. Contaminant concentrations exceeding North Carolina Groundwater Quality Standards have been detected at the facility, and as a result, corrective action will be necessary. Macon County should proceed with the selection of a remedy to restore groundwater quality and effectively reduce the contamination at the site.

The remedy(ies) selected must meet the requirements listed in the North Carolina Solid Waste Management Rules and Laws 15A NCAC 13B Sections .1635 through .1636 and be able to reduce contamination below Groundwater Quality Standards defined in 15A NCAC 02L .0202.

Solid Waste Management Rules governing the Macon County Lined Landfill require a public meeting to discuss the results of the assessment of corrective measures. Macon County then shall select a remedy in accordance with the requirements of 15A NCAC 13B .1636 and submit a *North Carolina Solid Waste Groundwater Corrective Action Permit Modification Application* for review and approval by the Section. The application is available online at:

http://www.wastenotnc.org/swhome/EnvMonitoring/NCSWGWCAPermitMod_20080215.pdf

The intention of this letter is to clarify what has been accomplished thus far and what will be needed in the near future to complete this stage of the environmental investigation and the effective remediation of this site. Please contact me at (919) 508-8516 or by e-mail at erwin.lane@ncmail.net if you have any questions or concerns regarding this letter.

Sincerely,

Ervin Lane
