Subject: Incomplete Permit Renewal Application
Municipal Solid Waste Landfill Facility
Macon County, Permit # 57-03, Document ID No. 10171

Mr. Stahl:

The Division of Waste Management, Solid Waste Section (Section) has reviewed the document titled *Revised Permit Renewal Application for the Macon County MSW Landfill Facility* (DIN10030). The document was submitted on your behalf by McGill Associates and was received in the Asheville Regional Office on March 15, 2010.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee has been paid, however, all of the application components required by 15A NCAC 13B.1603(a)(5) were not included in the submittal. Therefore, the application is deemed incomplete.

The following items require a response in order to continue the technical review of the application:

1. Submit an updated facility plan prepared in accordance with 15A NCAC 13B.1619.
2. Submit an updated engineering plan prepared in accordance with 15A NCAC 13B.1620.
3. Submit an updated construction quality assurance plan prepared in accordance with 15A NCAC 13B.1621.
4. Submit an updated closure and post-closure plan prepared in accordance with 15A NCAC 13B.1629.
5. Submit an updated water quality monitoring plan prepared in accordance with Paragraph (b) of 15A NCAC 13B.1623.

In addition to the above items, the following must be submitted in order to receive a five-year renewal of the Permit to Operate:

1. Complete an Environmental Compliance Review according to NCGS 130A-295.3.
