Re: Application Incomplete
Martin County Construction and Demolition Landfill
Permit No. 59-01, Martin County, Document ID No. 16109

Dear Mr. Robinson:

The Division of Waste Management, Solid Waste Section (Section) has received your application for a permit amendment for the Martin County Construction and Demolition Landfill (Permit No. 59-01) to continue operation. An invoice for the appropriate permit fee will be sent shortly. Payment of this fee is needed to consider the application complete.

A determination of completeness under the context of NCGS §130A-295.8(e) means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application.

Under NCGS §150B-3, when an applicant makes a timely and sufficient application for issuance or renewal of a permit, the existing permit does not expire until a final decision on the application is made. Therefore, until the final decision is made, you are authorized to continue operation of the Martin County Construction and Demolition Landfill in accordance with your most recent Solid Waste Permit and the Solid Waste Management Rules (15A NCAC 13B).

If you have any questions regarding this matter, please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Patricia Backus, P.E.
Environmental Engineer
Solid Waste Section
