SOLID WASTE SECTION

October 31, 2008

Mr. James Jenkins
Martin County C&D Landfill
P. O. Box 668
Williamston, North Carolina 27892

Subject: Completeness Determination for a
Construction and Demolition Landfill (CDLF) Unit
Martin County CDLF
Permit No. 59-01, Martin County, Document ID Number 6134

Dear Mr. Jenkins:

On September 2, 2008, the Division of Waste Management (Division) received your revised permit application for continued operation entitled:

- *Closure, Post Closure and Ground and Surface Water Sampling and Analysis Plan, Martin County Construction and Demolition Landfill Facility. Williamston, North Carolina. Submitted by Municipal Engineering Services Co., P.A. July 2008. Re-submitted September 2008. Document ID Number 6135.*

The Division has performed a review of your application for a determination of completeness. Your application has been determined to be complete within the context of N.C.G.S. 130A-295.8(e). A determination of completeness means that the application includes required components, but does not mean that the components provide all the information that is required for the Division to make a decision on the application.

The next step is for the Division to review the submittal for compliance with the Solid Waste Management Rules (Rules), 15A NCAC 13B .0547(4). Under N.C.G.S. 150B-3, when an applicant makes a timely and sufficient application for insurance or renewal of a permit, the existing permit does not expire until a final decision on the application is made by the Division. Therefore, until the final decision is made, the Martin County C&D Landfill is authorized to continue operating your CDLF Unit in accordance with your most recent Solid Waste Permit, and the Rules, 15A NCAC 13B. Should you have any questions regarding this matter you may contact me at (919) 508-8542.

Sincerely,

Pat Backus, P.E.
Environmental Engineer
