Re: Notification of Site Suitability, North Mecklenburg C&D Landfill Expansion II Application,
Permit Number 60-13, Mecklenburg County, North Carolina

Dear Mr. Griffin,

The Solid Waste Section of the Division of Waste Management has completed its review of the site study for the C&D expansion. Pursuant to Rule .0503 and .0504(1), the Division hereby notifies North Mecklenburg C&C Landfill Inc. that the approximately 14.64 acre waste foot print expansion (954,200 cubic yards) and the approved site boundary, approximately 25 acres, as proposed in the facility plan, is suitable for development as a solid waste management facility in its expanded format. North Mecklenburg C&D Company, Inc. is authorized to prepare an application for a permit to construct.

The Permit to Construct Application shall be prepared in accordance with 15A NCAC 13B..0504(2) and shall address the first five-year phase of landfill development. The Permit to Construct Application should be in general accordance with facility plan shown in the Site Study. The Division will approve a specific disposal area only after reviewing the permit to construct application.

Solid Waste Management Rule .0201 requires the Division to issue a solid waste permit in two parts. The first part is a Permit to Construct and the second part is a Permit to Operate. This letter is not a permit. This letter only informs the applicant that they may proceed with their permit application. The final action the Division may take on a permit application is the issuance or denial of a permit

Sincerely,

Edward F. Mussler III, P.E.
Permitting Branch Supervisor
Solid Waste Section
Division of Waste Management
