Re: Apex C&D Waste Transfer Facility, formerly PCM Apex Transfer Station
Application for transfer of permit
Permit No. 92-29T
Wake County, Doc ID No. 6417

Dear Mr. King:

An application for the above referenced facility has been submitted to the Solid Waste Section on your behalf by your consultant RSG Engineers. In accordance with GS 130A-295.8(e), the Section has reviewed your application and found it to be complete within the meaning of the statute. A determination of completion means that the application includes all required components but does not mean that the required components provide all the information that is required for the Section to make a decision on the application. We have performed a technical review of the submitted application and request the following:

1. The cost estimates for financial assurance should include the waste volume being transported and disposed at a municipal solid waste landfill.
2. Please provide the contact name, address, phone number, and email address for the landowner.
3. The requested service area of Wake county and surrounding counties does not include Orange County. The last two annual reports indicate that waste was received from Orange County. Please confirm the service area.
4. Please confirm that copies of the approved operating plan, current permit, and waste screening records are currently onsite at the facility, or describe plan for obtaining these records as soon as possible.

An invoice for the permit fee of \$3,000 will be forthcoming.

The application indicates that an irrevocable letter of credit will be used for financial assurance. The wording of the letter of credit should be approved by this office prior to issuance. Also, a standby trust fund is required with the letter of credit.

Please submit a complete revised copy of the application with an electronic copy.

If you have any questions or comments, please contact me at (919) 508-8510, or by email at donna.wilson@ncmail.net. Questions regarding the financial assurance mechanism may be directed to Donald Herndon, phone (919) 508-8502.

Sincerely,

A handwritten signature in black ink that reads "Donna J. Wilson". The signature is written in a cursive, flowing style.

Donna J. Wilson
Environmental Engineer
Solid Waste Section
