Dear Mr. Barbee:

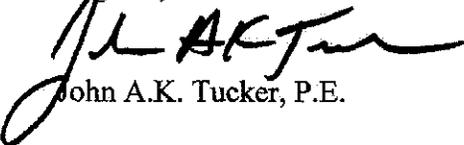

Thank you for your letter of March 3, 2010. We have been working diligently to comply with items 1 through 6 and much progress has been made. However; the surveyed cross-sections have been delayed.

You may be aware that during these economic times, surveying companies have drastically reduced their labor forces. The surveyor of record for this project is no exception. With minimal staffing, it is taking longer to get the project scheduled. In addition, this is a large facility, so more time than usual will be required to perform the work.

On behalf of Currin Bros. Inc., we are requesting an extension beyond the May 3, 2010 date referenced in your letter. The surveyor and I will be working on a revised schedule while we await your response.

I look forward to hearing from you soon.

Regards,

John A.K. Tucker, P.E.
