Date: April 29, 2003
Subject: Weyerhaeuser – Plymouth, NC (Permit # 94-01)

I received a geological examination of the Number 3 Landfill; Phase 1B and 2 Cells conducted by a registered geologist with RMT. The examination concentrated on evaluating the excavation and placement of fill to the permitted base grades. Nothing out of the ordinary was discovered. I am still waiting on the QA/QC for the monitoring wells. Once I receive this information, I will pass it along to you.
