Eleven Holidays are observed: New Year's Day, Martin Luther King Jr Day, Good Friday, Memorial Day, Independence Day, Labor Day, Veteran's Day, Thanksgiving (2 days), and Christmas (2 days).

- 8) The facility access road is of all weather construction and is being maintained in overall good condition.
- 9) The facility permit was reviewed during this audit. A copy of the facility contingency plan including emergency contact information is prominently posted in the scalehouse/landfill office in an area readily accessible by all facility personnel.
- 10) This facility is currently receiving +/- 4 tons of C&D waste per day.
- 11) All incoming loads are screened for unpermitted waste with one load screening activity being recorded every other week. Waste screening activities are being recorded in a log and maintained at the landfill office.
- 12) Groundwater monitoring reports are maintained at the Solid Waste Director's office and were in order and presented for review during this audit.
- 13) The most recent monitoring event was conducted by Richardson, Smith, Gardner, & Associates on 7 September 2011. The samples taken during this event were processed by Environment 1, Inc. of Greenville, NC.
- 14) Methane monitoring results are maintained in a log at the Solid Waste Supervisor's office; the log was in order and presented for review during this audit. The most recent monitoring event was conducted on 12 January 2012.
- 15) The certified operators are as follows:
 - Gene Biggs, Sr: Certified Landfill Operations Specialist; expires 18 November 2013
 - Carl B Critcher: Certified Landfill Operations Specialist; expires 1 May 2013
- 16) The facility groundwater monitoring wells were observed during this audit. All wells were readily accessible, painted with high visibility paint, secured by locks, and properly labeled.
- 17) All Land Clearing debris is managed in the Land Clearing Debris Management Area. All waste is being staged for grinding and removal from the site.
- 18) A large volume of vegetative waste was present on-site during this Facility Compliance Inspection. *Plans need to be underway for the grinding and removal of this vegetative waste as soon as possible.
- 19) All scrap tires are being placed directly into a covered trailer for removal by direct haul.
- 20) The white goods/metal recycling area is being well managed at this time:
 - All metal containing materials collected for recycling are deposited on-site on the concrete pad and are maintained in an orderly fashion until collected by the metal salvage contractor.
 - All Freon containing white goods are placed and maintained in an upright condition and are kept separate from non-Freon containing white goods/metals.
- 21) The active working area of the C&D unit is being maintained in a compact area and manageable size.
- 22) *Please endure that all waste is being covered with a minimum of six inches of soil at least once per week or when the active disposal area reaches ½ acre in size, whichever occurs first.
- 23) Soil is being stockpiled in an area adjacent to the landfill for use as weekly cover.
- 24) The waste type was reviewed; no unpermitted waste streams were noted in the active disposal area during this audit.
- 25) Wind blown debris is being well managed at this time. No windblown debris was noted on the landfill sideslopes or leaving the facility during this audit.
- 26) Brush and woody vegetation were noted on the landfill sideslopes. *Please remove all brush and woody vegetation and work establish a permanent groundcover suitable to preserve site stability and prevent erosion of your landfill cap system on all facility sideslopes.
- 27) Permanent Edge of Waste Markers have been installed around the footprint of the landfill and are being maintained as required.
- 28) *Corrective actions are required as a result of this audit.

Please contact me if you have any questions or concerns regarding this Facility Compliance Inspection Report.
