Mr. Kent Brandon
Wilkes County Solid Waste
PO Box 389
Roaring River, North Carolina 28669

Subject: Temporary Disaster Debris Staging Site
Roaring River MSW Landfill
Wilkes County, Permit #97-04, Document ID No. 8764

Mr. Brandon:

The Division of Waste Management, Solid Waste Section (Section) has completed review of the request (DIN8602) for the addition of a Temporary Disaster Debris Staging Site (TDDSS) at the Roaring River MSW Landfill Facility. The request was submitted on your behalf by Joyce Engineering Inc. and was received in the Asheville Regional Office on September 15, 2009.

This letter serves as an authorization of the activity as presented. There are no permit conditions associated with this activity so no permit modification will be required and no permit fee assessed. However, the TDDSS activities must be carried out in accordance with the revised Operation Plan in the area indicated on Drawing OP-01: Existing Site Conditions. In the event of an emergency you must contact Mr. John Patrone, Environmental Senior Specialist, at 336-771-5095 in order to activate the site. In addition, TDDSS **ID No. DS97-002** must be used on all documentation generated in association with operation of the TDDSS. The revised Operation Plan and Drawing OP-01 included with the request must be maintained on site and submitted to the Section at the time of the next permitting activity. You must notify the Section if the proposed activity changes significantly from the information submitted.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
