RE: DIN 15866
Abandonment of Permitting Activity

Dear Mr. Brown:

Pursuant to your letter of January 6, 2012, FCR, LLC is informing NCDENR of its decision to abandon permitting activities associated with the Recycled Fuel Facility in Mecklenburg County, NC.

Although we feel the project still has merit, economic factors have rendered the construction of a large scale operation not viable at this point.

Should you wish to discuss the matter further, please contact me at (704) 697-2003 or ron.cobb@recommunity.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Cobb", followed by a long horizontal line.

Ronald W. Cobb
Manager of Permits and Compliance
