ADDITIONAL COMMENTS

1. Fields are much improved from last winter – please follow the advice of your extension agent/regional agronomist in regards to **weed control**. Spraying has been recommended by Rick Morris.
2. Fields 1 & 2 have been cut, hay laying on fields at this time. No signs of recent application.
3. This office has received the renewal application for this permit. Setbacks will be verified in the coming months – it appears that additional markers may be needed along the front of the fields.
4. The required signs are posted and no odors were noted.
