Larry,

We are providing a status report. We met again last Friday with Chip Gould, President of Cason Builder Supply, Inc. We expect to hear from him again tomorrow about a possible merger/acquisition. We have sent an email to Gene Goodson about possible extension of occupancy of the site, but have not received a response as of this date. We need responses from both before we can submit the plan discussed in our meeting with you and Mr. Scott. We will keep you advised of the status of both, and submit the plan ASAP. Please note that we do not have access to email during the day. If you need to reach us, my cell phone is 704-277-4364, and Andrew's cell phone is 828-273-7585. Thanks,

Manning Huske
