Re: Permit to Operate: Carolina Resource Recovery LCID T&P Facility, Alamance County,  
North Carolina, Permit No. 0106-TP-2012, Doc ID 17842

Dear Mr. Scott:

Please find enclosed the Permit to Operate for the Carolina Resource Recovery LCID T&P Facility, Permit No. 0106-TP-2012. This permit issuance approves the 5-year permit renewal and modifies the permit from a combined T&P/Compost permit, to a T&P permit. The facility was previously permitted as 0106-COMPOST.

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

The stamped approved permit renewal application can be viewed and downloaded from our website:

<https://edm.nc.gov/DENR-Portal/>

Type in "Carolina Resource" into the Name/Subject value box, and click on Search. The stamped approved application is Doc ID 17843. To view a document double click anywhere on the line of the document.

If you have any questions regarding the permit or conditions, please contact me at (919) 707-8255 or by email at [donna.wilson@ncdenr.gov](mailto:donna.wilson@ncdenr.gov). The Solid Waste Management Specialist for the facility is John Patrone. He can be reached at (336) 771-5095.

Sincerely,

Donna J. Wilson  
Environmental Engineer  
Solid Waste Section
