Re: Modification of Operation Plan
Brunswick County Construction and Demolition Debris Landfill (CDLF)
Brunswick County, Permit 10-07, Document ID No. 18118

Dear Ms. Thompson:

The Division of Waste Management, Solid Waste Section received a request for a change in the operations plan for the Brunswick County CDLF on January 10, 2013 (DIN 18117). The request is to add the collection and management of tear-off asphalt shingles to your permit so that the material can be diverted for recycling into asphalt pavement rather than transferred for disposal.

The request included a plan prepared using the "General Operation Plan for Tear-Off Asphalt Shingle Sorting at a Solid Waste Permitted Facility" that was included in the *CAPA Best Practices Guide for Post-Consumer Reclaimed Asphalt Shingles in Asphalt Pavement*.

This letter serves as an approval of the permit modification. Please place a copy of this letter and the approved asphalt shingle recycling plan in your operating record and incorporate the recycling plan into your operation plan in future permitting requests. If you have any questions regarding this matter please contact Pat Backus at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Edward Mussler, P.E.
Permitting Branch Supervisor
Solid Waste Section

Encl: Approved operation plan for shingle recycling
