RE: CMS Landfill V – 2012 Facility Plan Modification Application  
Appendix F of Application – Solid Waste Section Approval  
Cabarrus County, North Carolina  
Permit No. 13-04  
ID Document No. 17538

Dear Mr. Tribble:

The Solid Waste Section has reviewed Appendix F of the subject modification Application, titled; “Report of Evaluation, Post- Settlement Base Liner Separation to Groundwater”, and has no objection to the vertical expansion to portions of the existing MSW Landfill. Based on the documentation provided, there appears ample vertical separation between the post-settlement bottom of the liner system to seasonal high groundwater elevation according to North Carolina Solid Waste Management Rules 15A NCAC 13B.1624 (b)(4).
