SOLID WASTE SECTION
ASHEVILLE REGIONAL OFFICE

August 14, 2012

Mr. Larry Frost, Environmental Engineer
North Carolina Division of Waste Management
Solid Waste Section - Permitting Branch
2090 U.S. Highway 70
Swannanoa, North Carolina 28778

Larry:

The City of Newton no longer needs permit # 1811 for the LCID since the City will be requiring all construction and demolition waste to be hauled to the Catawba County Landfill.

As you may be aware the City does have a permit for the 1.9 acre compost facility for the storing and composting of leaves. Please rescind permit # 1811 for the LCID.

Cordially,

Wilce Martin
Public Works and Utilities Director
City of Newton
Newton, NC 28658
