 Ray Williams; DENR-Solid Waste

STATUS OF PERMIT:

Active; Permit to Operate Large Type I Compost Facility issued 29 August 2012; expires 30 November 2016. A complete permit review request including updated facility, operations, and waste screening plans is due on or before 30 July 2016. This application must comply with the rules and regulations in effect at the time of the application.

PURPOSE OF SITE VISIT:

Partial Facility Compliance Inspection without records review

STATUS OF PAST NOTED VIOLATIONS:

None applicable

OBSERVED VIOLATIONS:

None; please see ADDITIONAL COMMENTS section below.

ADDITIONAL COMMENTS:

- 1) This Facility is a Type I Yard Waste Compost Facility.
- 2) This Facility is permitted to receive for composting, yard waste generated in the City of New Bern and from collection sites located at Craven County Convenience Centers.
- 3) This Facility is permitted to receive:
 - a. Leaf litter
 - b. Limbs
 - c. Shrubs
 - d. Trees
 - e. Non-treated, Non-Painted Lumber
- 4) Proper signage is posted at the entrance to the Facility stating the permit number, contact information, and listing banned/excluded wastes.
- 5) The hours of operation for this Facility are Monday through Friday 7:30 AM to 4:00 PM.
- 6) This site is secured by a locked gate at the facility entrance.
- 7) All feedstock and finished product stockpiles should be maintained in piles not larger than 30' wide and 50' tall.

- 8) The facility access road is of all-weather construction and is well maintained at this time.
- 9) Access around the facility is stable and no areas of erosion were noted during this Facility Compliance Inspection.
- 10) All incoming waste is being screened for unpermitted materials. Any unpermitted materials found in the waste stream are segregated from the approved feedstocks and removed from the site for disposal at the Coastal Environmental Partnership MSW Landfill, permit #25-09 in Tuscarora, NC. Due to improvements in the waste screening program, collected unpermitted waste volumes have been reduced by approximately 35%.
- 11) Roll-off containers are maintained on-site for the collection of recyclable materials and for the collection of unpermitted waste types. These roll-off containers are collected by GDS, Inc. of New Bern daily.
- 12) Any large stumps brought to the facility are staged onsite until a full load can be taken to the Coastal Environmental Partnership Compost Facility; permit #25-09 in Tuscarora, NC for processing/composting.
- 13) All large trees brought to the facility are staged onsite until a full load can be taken to the Weyerhaeuser Paper Mill in Vanceboro, NC to be used in pulp production.
- 14) Wind-blown debris is collected and placed in roll-off containers for transport to the permitted landfill daily.
- 15) The waste types at the facility were reviewed and no unpermitted wastes were observed co-mingled with the permitted waste staged for grinding during this Facility Compliance Inspection.
- 16) No grinding operations were underway during this Facility Compliance Inspection.
- 17) All ground wood chips are currently being removed from the site for use as boiler fuel and therefore do not have to meet pathogen reduction requirements.
- 18) All waste handling and processing operations are being conducted in a timely manner.
- 19) No composting operations were underway during this Facility Compliance Inspection.
- 20) Adequate breaks are being maintained around the stockpiles for fire suppression and safety.
- 21) No off-site erosion was observed during this Facility Compliance Inspection.
- 22) Minimal dust was observed during this Facility Compliance Inspection.
- 23) Digital photographs were taken during this Facility Compliance Inspection.

Please contact me if you have any questions or concerns regarding this Facility Compliance Inspection Report.
