

Periodic Methane Monitoring Report

Monitoring Date:	<u>30 July 2012</u>	Facility Name:	<u>Lamont Road LCID and C&D Landfills</u>
Facility Permit #'s:	<u>#26G and #26-08</u>	Monitoring Personnel (Name/Position):	<u>JEFF Sloop - SOLID WASTE TECH Support</u>
NC Landfill Rule:	<u>0.0500</u>	Monitoring Personnel (Name/Position):	<u>JEFF Sloop</u>
County (Location):	<u>Cumberland</u>	Equipment Field Calibrated by:	<u>27 July 2012</u>
Equipment Type:	<u>GEM 2000 +</u>	Manufacturer Cal/Service Date:	<u>30 July 2012 / 11:55 AM</u>
Equipment Serial #:	<u>GM 12027 / 09</u>	Date/Time of Field Calibration:	<u>April 2014 / Sept 2014</u>
Calibration Gas:	<u>O₂, CH₄, CO₂, N₂</u>	Cal Gas Expiration Date:	
Meter pump rate:	<u>N/A</u>		

Gas Monitoring Wells

Monitoring Point ID	Time	Initial %CH4	Initial %LEL	Purge Time	Stable %CH4	Stable %LEL	Stable %O2	Stable %CO2

Drawings identifying location where each building sampled (include north arrow):

Climatic/Physical Conditions at Site

Samples must be collected under normal/average conditions of temperature, pressure, and climate for the season. Barhole punch sampling should not be performed during or immediately after rain events, or when soils are saturated or frozen. **All sampling must be performed after 12:00 pm** (subsurface gases have a diurnal cycle and generally are at a maximum during the afternoon), and preferably when barometric conditions are not rising (subsurface gas pressures will be less than atmospheric pressure under these conditions and gas will therefore not migrate), or representative samples may not be obtained. Barometric information can be obtained from many locations (i.e. <http://weather.noaa.gov>).

- a. Soil Conditions: _____
- b. Weather Conditions: Sunny _____
- c. Temperature: 84°F _____
- d. Barometric Conditions: 30.0 Rising Falling Steady x Reading ~~29.92~~ 30.0 mmHg
- e. Relative Humidity within range of 10%-90%? YES Value: 64% _____
- f. Condition and Access: Are all monitoring points identified in the field (signage) in accordance with approved monitoring plan; are they secured; has the owner/operator maintained access?
If no, explain in space provided below.

g. If stressed vegetation is noted, describe the extent and location in the space provided below.

Description of Sampling Techniques: (e.g., wells are vented or not, barhole punch methodology, etc.)

Additional Comments:

None

Certification:

To the best of my knowledge, the information reported and statements made on this data submittal and attachments are true and correct. I am aware that there are significant penalties for making any false statement, representation, or certification including the possibility of a fine and imprisonment.
