---

Hi Mr. Coe-

One more request-after you finish making the required revisions to the Operation Plan and drawings, can you please submit an electronic copy of all parts of the LCID permit application including drawings so that we may enter the permit application into our database?

Thank you,  
Christine

**Subject:** Veach LCID request for additional info

Mr. Coe,

This email follows up our conversation earlier today regarding additional information being requested by the NC Solid Waste Section to complete the LCID permit application.

Please modify the Operation Plan to include the following information:

1. Total gross capacity (for the entire acreage of landfill) in cubic yards. Gross capacity is the measured volume between bottom of waste and top of final cover.
2. Daily intake tonnage.
3. Types of LCID waste to be received. (land clearing waste; yard trash; untreated and unpainted wood; uncontaminated soil; inert debris such as unpainted rock, brick, concrete, and concrete block; and asphalt in accordance with NCGS 130-294(m).
4. List of all counties from which the Veach LCID will be receiving LCID waste.

Please modify the cross-sections on Sheet 6 to reflect the top of seasonal high water table. Waste shall be placed a minimum of four feet above the seasonal high water table.

Please contact me if you have further questions or comments.
