Re: Compliance Review for Veach Land Clearing and Inert Debris Landfill, Location ID #P1252  
(New Permit), Davidson County, North Carolina, Document ID Number 19129

Mr. Phillips:

The Division of Waste Management, Solid Waste Section (Section) has received the completed Compliance Questionnaire (DIN18961) submitted as part of the Compliance Review process for the proposed Veach Land Clearing and Inert Debris Landfill, Location ID #P1252. The Questionnaire was submitted on your behalf by Mr. Andrew Veach and was received in the Asheville Regional Office on June 12, 2013.

Unfortunately, per my voice mail, the last page of the Questionnaire has not been signed by a representative of Veach Land Clearing and Inert Debris Landfill. The last page must be signed by a representative of the facility in order to complete the Compliance Review process. Please complete the last page of the attached Questionnaire, as indicated by the yellow Post-it notes, and return to me at the address below. Don't hesitate to call if you have any questions or concerns.

Please submit the completed questionnaire to me at the following address: 2090 US Highway 70, Swannanoa, NC 28778.

Best regards,

Allen Gaither  
Permitting Engineer
