Durham, NC 27701

Subject: Permit Modification Application
City of Durham Transfer Station
Permit No. 32-12T, Durham County, Document ID No. 19180

Dear Mr. Marriott:

The Division of Waste Management, Solid Waste Section, has received your permit modification application for the City of Durham Transfer Station, Permit No. 32-12T (DIN 19179). The primary purpose of the modification is to change the operator of the facility from Republic Services of NC, LLC to Waste Industries, LLC based on a change in contract. The request also included a few changes to the operation including a change in disposal facilities, the removal of a compactor, a change in the manner of handling of the comingled recyclables, and clarifications based on comments made by John Patrone, the environmental senior specialist for your facility

The application is considered complete within the context of North Carolina General Statute (NCGS) §130A-295.8(e) and I see no problems with the changes based on my limited review of the request. However, processing the permit modification cannot be completed by June 29. Therefore, you may accept this letter as temporary approval to operate as described in your modification request until the processing of the request is completed.

If you have any questions regarding this matter, please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Patricia Backus, P.E.
Environmental Engineer
Solid Waste Section

cc: Bill Davidson, General Manager, Waste Industries
Ed Mussler, P.E., Permitting Branch Head
Jason Watkins, Western District Supervisor
John Patrone, Environmental Senior Specialist
