Re: Permit Modification Withdrawal
City of Durham Transfer Station
Durham County, Permit No. 32-12T, Document ID No. 17463

Dear Mr. Marriott:

This letter is to confirm that the Division of Waste Management, Solid Waste Section (Section) received your request of October 18, 2012, to withdraw the permit modification request to add asphalt shingle recycling to the City of Durham Transfer Station. The Section now considers this permit action closed.

Since your original application, the Section contributed to a best practices document that includes the requirements of the agencies that have been involved in asphalt shingle recycling effort. It is available on our web site. The appendices include instructions for preparing a request to add asphalt shingle recycling to a permitted solid waste facility. A permitting fee is not being charged for this addition. However, you should always check with the Section prior to preparing the request to determine if there have been any changes.

Please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov if you have further questions.

Sincerely,

Patricia M. Backus, P.E.
Environmental Engineer
Solid Waste Section

cc: Ed Mussler, P.E., Permitting Branch Supervisor
Larry Frost, Environmental Engineer
Jason Watkins, Western District Supervisor
John Patrone, Senior Environmental Specialist
