**RE: Fogleman & Fogleman Soils, Inc.
LCID Landfill and Recycling
Solid Waste No. Permit 32-F**

Dear Ms. Backus:

Smith Gardner, Inc. (S+G) is pleased to present this request on behalf of the Fogleman & Fogleman Soils, Inc. for the above referenced facility. As you are aware, the Fogleman's operate a land clearing and inert debris (LCID) landfill and from time to time, metal (ferrous and non-ferrous) materials are encountered. Therefore, we are requesting approval to place a 40 CY roll-off container on site for the management of these materials. The purpose would be to collect the metal materials sorted from the loads and store them in this container. When the container fills up they will contract with a permitted metals facility to properly handle and dispose of the metal material.

Thank you for taking time to address this matter. Please contact us with questions or concerns at (919) 828-0577 or by email below.

Sincerely,
SMITH GARDNER, INC.
