Subject: RE: 4403 Storage Hut exclusion
Date: Friday, February 08, 2013 2:31:00 PM

Stephen,

The Solid Waste Section (Section) approves your request to exclude the new storage hut from the landfill gas monitoring plan. Please be advised that there shall be no smoking in or around the hut and open the windows when an employee is occupying the hut for an extended period of time. The Section reserves the right to reverse this decision in the future if problems arise.

Sincerely,
Elizabeth Werner

Subject: 4403 Storage Hut exclusion

Elizabeth,

I have attached a picture of the storage hut at FFLF permit number 4403 for reference. I am requesting that the storage hut featured in the picture be excluded from monitoring due to the following reasons. The hut is located on asphalt thus preventing gas from finding its way into the hut. We will not have any utilities connected to the hut and no foundation will be built. We will level the building with block and we plan to repair some of the siding and the leaky roof. Please acknowledge that this can be excluded from the current monitoring plan. If you have any questions please don't hesitate to contact me.

Thank You,

Stephen King
