Re: Financial Assurance Cost Estimate
Blue Ridge Paper Products Industrial Landfill
Haywood County, Permit #44-06

Dr. Mr. Giauque:

The Solid Waste Section (Section) has reviewed your letter dated June 14, 2013 requesting that costs associated with routine post closure care monitoring be included in the potential assessment and corrective action (PACA) cost estimate. In order to remain consistent with previous submittals, the Section will allow Evergreen Packaging to include post closure care cost in the PACA cost estimate for the 2013 and 2014 financial assurance annual updates. However, Evergreen Packaging will be required to submit cost estimates for environmental monitoring related to post closure care and PACA in accordance with the guidelines in place at the time of permit renewal in 2015.

Please contact me at 919-707-8288 or by email at ervin.lane@ncdenr.gov if you have any questions or concerns regarding this correspondence. Thank you for your cooperation with this matter.

Sincerely,

Ervin Lane
Hydrogeologist
Environmental Compliance
Solid Waste Section
