Subject: Determination of Completeness
Blue Ridge Paper Landfill No. 6
Haywood County, Permit # 44-06, Document ID No. 17386

Mr. Giauque:

The Division of Waste Management, Solid Waste Section (Section) has completed the review of the document titled *Landfill No. 6 – Operations and Maintenance Manual, July 2012* (DIN16991) submitted in advancement of a Permit modification request. The document was received in the Asheville Regional Office on August 2, 2012.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. The permitting modification activity fee has been paid and the draft submittal contained all components necessary to make a decision on the application. Therefore, the application is deemed **complete**.

A modification to the Permit will be issued following satisfactory review of a complete copy of the *Landfill No. 6 – Operations and Maintenance Manual*.
