Re: Application for Permit to Construct, Phase 5  
Iredell County Facility Expansion  
Iredell County, Permit No. 4903MSWLF-1993,

Dear Mr. Lambert,

The Solid Waste Section of the Division of Waste Management (Section) has completed a further Technical Review of your Phase 5 - Permit to Construct application. Again, further questions and comments may be asked in the future.

1. Page 6. Will C&D and LCID waste ever be placed in the new Phase?
2. Page 6. Section 1.1.1. states that C&D and LCID waste will be disposed in C&D and LCID landfills. Is this correct?
3. Page 6. Is 83.27 acres the total waste footprint for Phases 1-8? Is Phase 9 a vertical expansion?
4. Page 7. Provide gross volume of airspace (in cubic yards) for each Phase including capping requirements. What is the area of liner that is needed for each Phase?
5. Page 7. Is the service area only Iredell County? What is the daily, monthly or annual maximum waste volume?
6. Could you send me any documentation for the Closure work on the C&D Landfill and any corresponding paperwork?

If you have any questions or comments, please contact me at (704) 235-2163, or by email at [john.murray@ncdenr.gov](mailto:john.murray@ncdenr.gov).

Sincerely,

A handwritten signature in blue ink that reads "John Murray". The signature is written in a cursive style with a long horizontal stroke at the end.

John Murray, P.E.  
Regional Engineer  
Solid Waste Section
