Dear Mr. Lambert:

The application for Iredell County MSW Landfill Facility's Permit to Construct Phases 5 and 6, have been submitted to the Division of Waste Management, Solid Waste Section (SWS) on your behalf by your consultant, Municipal Engineering Services. It was received on January 9, 2012. *The Design Hydrogeologic Study* portion was revised and then approved on May 24, 2012 (DIN 16683). The Engineering Technical review is proceeding and should be completed in the near future.

In accordance with GS 130A-295.8(e), the Section has reviewed your application and found it to be complete. A determination of completion means that the application includes all required components but does not mean that the required components provide all the information that is required for the Section to make a decision on the application.

After you have reviewed this letter, please call me at (704) 235-2163 should you have any questions regarding the Completeness Review.
