Subject: Determination of Completeness – Application Incomplete
Highlands Transfer Station
Macon County, Permit # 5704T-TRANSFER-2008, Document ID 18771

Mr. Stahl:

The Division of Waste Management, Solid Waste Section (Section) has completed a review of the request for renewal of the Permit to Operate the Macon County Highlands Transfer Station (DIN 17935). The document was received in the Asheville Regional Office on December 18, 2012.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee has been paid, however, all the components required by 15A NCAC 13B.0401 have not been submitted, so the application is deemed **incomplete**.

In order to complete the application review, please submit a revised Operations and Site Plan.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
