Re: Application Review
Capitol Waste C&D Transfer Station
Permit No. 9237T-TRANSFER-2010, Wake County, Document ID No. 17375

Dear Mr. Brown:

The Division of Waste Management, Solid Waste Section (Section) has reviewed the permit amendment application submitted for the Capitol Waste C&D Transfer Station (Permit No. 9237T-TRANSFER-2010) (DIN 17217). The following are comments and questions about your application. Please make changes to the application as appropriate.

1. Page 9 – Waste Water/Leachate. Please provide more detail on the meaning of proper treatment and release to the environment for leachate.
2. Page 11 – What is the frequency of the random inspections?
3. The phone numbers given on pages 12 and 15 are for the Raleigh Central Office, not the regional office. The appropriate regional environmental senior specialist of the Field Operations Branch should be contacted. At this time it is Shawn McKee and she is located in the central office.
4. Page 12 – In addition to verbal notification, the facility must submit written notification with 15 days of the occurrence. The Section has a “Fire Occurrence Notification” form under the “Fire” heading at <http://portal.ncdenr.org/web/wm/sw/forms> which can be used for that purpose.
5. Please add the approved asphalt shingle recycling plan to the operations plan.

If you have any questions regarding this matter, please contact me at (919) 707-8257 or by email at pat.backus@ncdenr.gov.

Sincerely,

Patricia Backus, P.E.
Environmental Engineer
Solid Waste Section

cc: David King, Capitol Waste Transfer
Dennis Shackelford, Eastern District Supervisor

Ed Mussler, P.E., Permitting Branch Head
Shawn McKee, Environmental Senior Specialist
