The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

**ADDITIONAL COMMENTS**

1. Facility is permitted as Land Clearing and Inert Debris (LCID) Landfill and Treatment and Processing (T&P) facility. The landfill was originally permitted by Wake County. The current permitting authority is the NC DENR-Solid Waste Section (SWS).
2. A permit modification was issued by NCDENR on December 17, 2010. This Permit to Operate expires December 17, 2015. Permit #92M covers the property identified as PIN 1727262194.
3. The facility is permitted to receive waste generated in Wake County. This facility is permitted to receive land clearing waste; yard trash; untreated and unpainted wood; uncontaminated soil; inert debris such as unpainted rock, brick, concrete, and concrete block; and asphalt.
4. The LCID operation has set a maximum disposal rate of **10,000 cubic yards** per year for the LCID landfill and **57,300** cubic yards (average of **200** cubic yards per day based on **5.5** operating days per week or **280** operating days per year). The T&P operation on top of Phase-1 LCID, has a maximum processing rate of **57,300 cubic yards** per year.
5. The facility site plan and operations plan were discussed.
6. **A complete copy of the Permit and Operations Plan need to be maintained at the facility for review during a Comprehensive Inspection.**
7. The landfill is open Monday – Friday from 8:00 - 5:00 and Saturday from 9 to 3:00. The facility is secured with a locked gate when staff persons are not on site.
8. Per 15A NCAC 13B .0566(16): “A sign shall be posted at the facility entrance showing the contact name and number in case of an emergency and the permit number.” **The permit number must be included on the sign by the entrance.**
9. The facility currently segregates different materials for treatment and processing. The facility accepts yard waste composed of high carbon nitrogen ratio material, concrete, asphalt and dirt. The facility only accepts yard waste composed of high carbon nitrogen ratio material.
10. The facility is in the process of installing a mulch coloring system; logs will be ground for that type of mulch.
11. No erosion or runoff was observed. The facility pad/landfill cap appeared to be in good condition. No holes, ruts, or areas of ponding were observed.
12. Asphalt is accepted, ground and is used onsite for haul road maintenance. Roads onsite are well maintained.
13. Materials stored on site were neat and well segregated.
14. Windblown litter is being managed well. No windblown or unacceptable waste types were noted. Good job!
