Dear Mr Murphy:

Pursuant to North Carolina General Statutes 130A-22(a) and to 15A North Carolina Administrative Code 13B, I conducted an inspection on 3 July, 2003, of the Allen Pit LCID notification, located off of NC 55 West, in Craven County, North Carolina.

My inspection found that Construction and Demolition (C&D) waste consisting of painted concrete block, painted brick, structural timbers, carpet, tile, insulation, roofing, metal conduit, and scrap metal had been disposed of in this facility by your company. The disposal of C&D waste at this facility constitutes a violation of the North Carolina Solid Waste Management Rules, codified at 15A NC Admin. Code 13B; specifically:

15A N.C. Admin. Code 13B .0563(1)(a) states that "The facility is to be operated for the disposal of land clearing waste, inert debris, untreated wood, and yard trash." and .0566(2) "The facility shall only accept those wastes which it is permitted to receive."

You are in violation of Section 13B .0563(1)(a) and .0566(2) in that C&D waste has been disposed of in this notified LCID landfill.

Based on the foregoing, discontinue all dumping operations and by 1 September, 2003 comply with 15A NCAC 13B .0563 LCID Landfills by taking the following action:

1. Coordinate the excavation of this waste with myself by calling and scheduling a time for us to coordinate the unapproved solid waste being removed.
2. Ensure that all waste is removed from the site, and transported to a Division approved solid waste disposal facility. **Provide receipts from this facility to:**
