 Solid Waste Compost Demonstration Approval Letter: September 17, 2012
 Extension Request Date: 6/17/13
 Expiration Date: 9/17/13

PURPOSE OF SITE VISIT:

Partial Site Inspection

STATUS OF PAST NOTED VIOLATIONS: None

OBSERVED VIOLATIONS: None

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

1. On site May 3, 2013, to conduct partial site inspection and to discuss a tax certification application (TCN04536). All three bins (forced aeration method) were in use (waste was first accepted on 9/14/12) and the aeration system was operational. A fourth bin (lower portion only) was on site but construction was not complete. Please submit the discussed amendment to your demonstration application for all additional bins and proposed feed stock increases. The additional bin(s) may not be in operation until approval has been received from the Section.
2. All food wastes within the bin system were covered and exhibited minimal odors. Buffers appeared to be maintained and the Mr. Keaton was in the process of mixing/controlling incoming feed stocks in the designated area.
3. One main windrow was formed at the time of the inspection. Material was covered, no standing water was noted, and in general the site was well maintained and operated. The second windrow had been spread on site (to create pad for operation). As this material was not final product, and the spreading of the uncured compost was not an approved operation, the facility was informed that the material needed to be pushed back into windrows for controlled aging/curing. This was completed by the May 13, 2013 follow-up site inspection.

5/3/13

4. The completion of the tax certification will occur at a later date, following the identification (and labeling) of specific equipment/assets as outlined in the email communication dated 5/5/13. Note that the period in which to ask for an extension to the demonstration project, or for submittal of a full permit application, is in the June-Sept time frame of this year. These options and deadlines should be discussed with Tony Gallagher tony.gallagher@ncdenr.gov ; 919-707-8280.

Please contact me if you have any questions or concerns regarding this inspection report.
