Re: Permit to Operate: McGill Environmental Systems Compost Facility, Chatham County,  
Permit No. 1906-COMPOST, a Large Type 4 Compost Facility, Doc ID 20624

Dear Mr. Lyons:

Please find enclosed the Permit to Operate for the McGill Environmental Systems Compost Facility, Permit No. 1906-COMPOST. This permit issuance approves a modification to the compost operation, which involves replacement of the roof and sides of the back building (curing and screening building), changes to the screening equipment, and the addition of fans in the east side of the primary building (open roof area).

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations. Please review the conditions of the permit carefully.

The stamped approved modification application can be viewed and downloaded from our website:

<https://edm.nc.gov/DENR-Portal/>

Type in "1906-COMPOST" in the ID value box and click on Search. To view a document, double click anywhere on the line of the document.

If you have any questions regarding the permit or conditions, please contact me at (919) 707-8255 or by email at [donna.wilson@ncdenr.gov](mailto:donna.wilson@ncdenr.gov). The Solid Waste Management Specialist for the facility is John Patrone. He can be reached at (336) 771-5095.

Sincerely,

Donna J. Wilson  
Environmental Engineer  
Solid Waste Section
