Permit No. 32J, Durham County, Document ID No. 20639

Dear Mr. Plessinger:

The Division of Waste Management, Solid Waste Section, has received your permit amendment application for the Waste Industries - Stone Park Ct LCID LF (Permit No. 32J). This letter is to notify you that the application is considered complete within the context of North Carolina General Statute (NCGS) §130A-295.8(e).

A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. A technical review of your application is in progress.

Under NCGS §150B-3, when an applicant makes a timely and sufficient application for issuance or renewal of a permit, the existing permit does not expire until a final decision on the application is made. Therefore, until the final decision is made, you are authorized to continue operation of the Waste Industries - Stone Park Ct LCID LF in accordance with your most recent Solid Waste Permit and the Solid Waste Management Rules (15A NCAC 13B).
