**RE: Landfill Gas Monitoring Report  
LFG Monitoring - Monthly Event of March 2014  
Town of Kernersville Closed Landfill, Permit No. 34-04  
JOYCE Project No. 838.1301.12, Task No. 05**

Dear Ms. Drummond:

Please find attached a Landfill Gas Monitoring Log and an EMRF for the quarterly monitoring event that occurred on March 11, 2014 at the Closed Town of Kernersville Landfill (Permit number 34-04). Methane monitoring for this event was conducted as proposed by JOYCE on behalf of the Town of Kernersville in accordance with approved *Landfill Gas Monitoring Plan* dated July 17, 2012. Methane was detected in gas monitoring probes GW-1, GW-2R, and GW-8 above the LEL (Lower Explosive Limit) during this monitoring event.

During this event three probes belonging to the adjacent Waste Management Piedmont landfill GP-9, GP-10, and GP-11 were also monitored for methane gas. In the Piedmont landfill boundary probe GP-10 methane gas was detected above the LEL. As has been noted in the past, it is likely that the impacts observed at GP-10 are the result of migration from the Kernersville landfill. The results in GP-10 are consistent with those seen in the northern boundary probes of Kernersville and inconsistent with other probes surrounding the Piedmont Landfill. The migration from the Kernersville Landfill has been addressed through a system of landfill gas vents installed on the property at the end of November. A map has been included in this report to illustrate the proximity of the two landfills and the gas probes between them.

If you have any further questions, please contact me at (336) 323-0092. Thank you.

Sincerely,  
**JOYCE ENGINEERING**

**Notice:** This form and any information attached to it are "Public Records" as defined in NC General Statute 132-1. As such, these documents are available for inspection and examination by any person upon request (NC General Statute 132-6).

**Instructions:**

- Prepare one form for each individually monitored unit.
- Please type or print legibly.
- Attach a notification table with values that attain or exceed NC 2L groundwater standards or NC 2B surface water standards. The notification must include a preliminary analysis of the cause and significance of each value. (e.g. naturally occurring, off-site source, pre-existing condition, etc.).
- Attach a notification table of any groundwater or surface water values that equal or exceed the reporting limits.
- Attach a notification table of any methane gas values that attain or exceed explosive gas levels. This includes any structures on or nearby the facility (NCAC 13B .1629 (4)(a)(i)).
- Send the original signed and sealed form, any tables, and Electronic Data Deliverable to: Compliance Unit, NCDENR-DWM, Solid Waste Section, 1646 Mail Service Center, Raleigh, NC 27699-1646.

**Solid Waste Monitoring Data Submittal Information**

Name of entity submitting data (laboratory, consultant, facility owner):

Joyce Engineering, Inc.

Contact for questions about data formatting. Include data preparer's name, telephone number and E-mail address:

Name: G. Van Ness Burbach, Ph.D., P.G.    Phone: (336)-323-0092

E-mail: vburbach@joyceengineering.com

**Environmental Status: (Check all that apply)**

- Initial/Background Monitoring   
  Detection Monitoring   
  Assessment Monitoring   
  Corrective Action

**Type of data submitted: (Check all that apply)**

- Groundwater monitoring data from monitoring wells   
  Methane gas monitoring data  
 Groundwater monitoring data from private water supply wells   
  Corrective action data (specify) \_\_\_\_\_  
 Leachate monitoring data   
  Other(specify) \_\_\_\_\_  
 Surface water monitoring data

**Notification attached?**

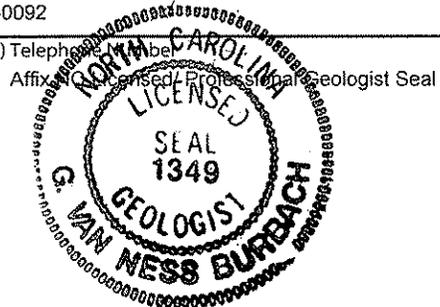

- No. No groundwater or surface water standards were exceeded.  
 Yes, a notification of values exceeding a groundwater or surface water standard is attached. It includes a list of groundwater and surface water monitoring points, dates, analytical values, NC 2L groundwater standard, NC 2B surface water standard or NC Solid Waste GWPS and preliminary analysis of the cause and significance of any concentration.  
 Yes, a notification of values exceeding an explosive methane gas limit is attached. It includes the methane monitoring points, dates, sample values and explosive methane gas limits.

**Certification**

To the best of my knowledge, the information reported and statements made on this data submittal and attachments are true and correct. Furthermore, I have attached complete notification of any sampling values meeting or exceeding groundwater standards or explosive gas levels, and a preliminary analysis of the cause and significance of concentrations exceeding groundwater standards. I am aware that there are significant penalties for making any false statement, representation, or certification including the possibility of a fine and imprisonment.
