Re: *Request for Gas Probe GP-10*  
Piedmont MSW Landfill and Recycling Center  
Forsyth County  
Solid Waste Permit Number 34-06  
DIN 20436

Dear Mr. Lacsamana:

The Solid Waste Section has completed a review of *Piedmont Landfill and Recycling Center, Permit No. 34-06* letter dated January 10, 2014 (DIN 20426) and submitted by Waste Management for the Piedmont MSW Landfill and Recycling Center. The letter was submitted in response to the *Facility Compliance Inspection Report* dated October 1, 2012, the *Response to the Facility Compliance Inspection Report* dated October 8, 2012, various Solid Waste Section discussions with your environmental consultant (Joyce Engineering, Inc.), and landfill gas activities currently being conducted at the adjacent closed unlined Town of Kernersville MSW Landfill.

Within the January 10, 2014 letter, Waste Management is requesting that gas probe GP-10 be excluded from the landfill gas migration compliance network. Gas probe GP-10 will continue to be monitored, and the results will be available upon request. Continued monitoring of GP-10 will be for informational purposes only, and not to demonstrate compliance for this landfill.

As a result, the gas probe request is approved as described. If you have any questions or concerns regarding this letter, please feel free to contact me by email at [jaclynne.drummond@ncdenr.gov](mailto:jaclynne.drummond@ncdenr.gov) or by phone at 919-707-8294.

Sincerely,

Jaclynne Drummond  
Compliance Hydrogeologist  
Solid Waste Section
