Subject: Permit to Operate, Pre-Operational Meeting
Ozone Waste Solutions, 4126-MWP-2014
Guilford County, DIN 20870

Dear Mr. McQueen:

On Thursday April 10, 2014 Solid Waste Section staff conducted a pre-operational meeting at the Ozone Waste Solutions facility in Guilford County. The Facility has the Section's conditional approval to begin operations, including:

1. Prior to commencing operations a sign must be posted at the Facility in a place visible to the public that contains at a minimum the Facility's name, permit number and emergency contact information. The lettering should be at least 3 inch tall.
2. Prior to commencement of operations you should inform Mr. Hugh Jernigan, Senior Environmental Specialist, of the date on which you will treat your first load of medical waste. Mr. Jernigan may be reached at (336) 771-5093 or at hugh.jernigan@ncdenr.gov.

I want to thank both you and Mr. Deason for your time, your hospitality and the informative tour of your Facility. Should you have any questions regarding this matter you may contact me at (828) 296-4704 or at larry.frost@ncdenr.gov.

Sincerely,

Larry Frost, Environmental Engineer
Division of Waste Management, Solid Waste Section
